

Rep. Eshoo's 28-year long out of touch engagement in the district have resulted in 4 inconsequential bills.

Consider independent thinker Rishi Kumar who believes in NOT Left, Not Right, But Forward!

REPRESENTATIVE ANNA ESHOO

Rep. Eshoo has a total of 4 bills that became law in 28 years. Three bills renamed buildings and designated an awareness month. Another bill re-did the billing for a children's hospital. **Inconsequential 28 years!**

She worked for 15 years on a pandemic preparedness plan, but failed to codify it. It failed and compromised America. As the Chair of House Health Subcommittee and the Biodefense Caucus, she held no hearings on the pandemic. **Asleep on the job!**

Cast blame on Cal Fire – "did not update the fire plan for 100 years" while shirking responsibility. Rep. Eshoo's empathy was missing at the CalFire press conference and was unaware that California uses inmates for firefighting. **Out of touch!**

Rep. Eshoo was unprepared to engage in the debate. Not clued in on the issues, and did not offer good solutions. Was not truthful about how her campaign money is being used. For signs and stamps? Nope – large sums of money donated to DCCC every year. **Lacks integrity!**

Keen on increasing the price of our drugs: Manufacturers of biologic drugs would get 12 years of exclusivity based on the biologic amendment offered by Rep. Anna Eshoo. Rep. Eshoo is backed by Big Pharma PACs. She broke her 1988 pledge to "challenge the sacred cows." **Lobbyist driven politics. Not for the people!**

POLICY BILLS

IMPACT

CHALLENGER RISHI KUMAR

Results-driven action: Re-elected with the most votes in Saratoga's election history by taking up tough challenges and delivering results. Pre COVID-19, I held town halls in all 3 counties of our district to understand the issues. I have taken the time to write many detailed policy papers (RishiKumar.com/priorities).

Takes charge: Called 86,000 quarantined seniors offering help with groceries and meds. I launched the Neighborhood Pandemic Preparedness Team, managed a daily comprehensive Covid-19 news-letter, conducted 23 town hall meetings with healthcare professionals, stimulus package experts, and held online coding workshops.

Urgent Action in a crisis: During the fires, I sent out regular updates, established an info page with resources for residents, and called residents of affected cities offering any and all help. Held a 6-foot-distancing town hall meeting inviting affected county residents to attend.

Pragmatic solutions: I presented clear policy ideas at the zoom meeting with Rep. Eshoo. RishiKumar.com/discussion. I understand the issues of our district having visited neighbors in each of the 31 cities and census designated places. I am keenly invested to solve them and demonstrate results.

People-focused: I seek to always fight on behalf of the people. Successfully prevented 8 San Jose Water Company rate increases, dropped burglaries by 41%. As an elected leader, I like to be on the forefront of all the important issues of my community. Fiercely independent leadership, never weighed down by lobbyists or Special Interest Groups.

**DO YOU REALLY WANT AN ESTABLISHMENT DRIVEN POLITICIAN BACK FOR ANOTHER 28 YEARS?
I WILL BE HONORED TO HAVE YOUR VOTE AND WILL NOT LET YOU DOWN!**
